

## MEDIA RELEASE

29 October 2025

### ROADS UPDATE

With the weather being more accommodating last week, Council's Roads Team has now completed the road reconstruction works on Caleb's Lane.

The team will shortly be commencing work on Bumbora Road for the section of road that has failed near the cattle grid just before the entrance to Bumbora Reserve.

Please be aware that this short section of road may be closed some days between the hours of 8am and 3pm to facilitate the works. Radio announcements will be made prior to the closures.

Bumbora Reserve will be inaccessible by vehicle during road closure periods. Resident access will not be impacted.

We thank the community for their patience as we strive to make improvements across the island in advance of summer.
