

## MEDIA RELEASE

8 May 2026

### PROPERTY NUMBERS – COMMUNITY REMINDER

Norfolk Island Regional Council (Council) is reminding property owners to **check that their property number is clearly visible and in good condition.**

Property numbers play an important role in emergency response, service delivery, and general location identification. Faded, damaged, missing, or obscured numbers can make it difficult for emergency services and other essential providers to locate properties quickly.

Property owners who have a faded, damaged, or missing Council issued rural number are encouraged to contact Customer Care at [customercare@nirc.gov.nf](mailto:customercare@nirc.gov.nf) or call the local freecall on 0100 to arrange and collect a replacement or seek advice.

Council appreciates the community's support in keeping property addressing clear and up to date for the safety and benefit of all residents.
