

OPERATIONAL PLAN

2025-2026

OUR VISION:

Norfolk Island - theBest Small Island in the World

OUR MISSION:

The Norfolk Island Regional Council will provide local civic leadership and governance through good decision-making, accountability and transparency.

We will protect and enhance our unique culture, heritage, traditions and environment for the Norfolk Island people. We will promote a healthy and sustainable lifestyle, look after our community assets and foster a prosperous economy.

OUR VALUES:

The Norfolk Island Regional Council embraces the following values:

- Integrity
- Communication
- Accountability
- Respect
- Excellence

Adopted: 25 June 2025

Administrators' Message

Since commencing in the role of Administrators on December 6, 2024 we have enjoyed the welcoming nature of the Norfolk Island community and the face-to-face dialogue we have had with many groups and individuals. By concentrating on listening, appreciating the history of change and hearing the ideas of others, we are informed about what matters most.

We respect and enjoy the frank views from community and we will continue to engage regularly and always throughout our term of administration, which is until December 2025 unless the Council is withdrawn from administration earlier to install a democratically elected Assembly.

To honour this generous early interaction, we have both committed to being fully transparent. This message is written in this spirit.

It has been identified that the asset accounting and management practices that have been in place for some time do not paint a full and accurate picture. It's probable that previous budgets have been constructed to pursue the goal of an early surplus. This is understandable, given the years of administration where the focus has been financial improvement.

In short, this departure from proper accounting doctrine has led council to underrepresent its asset responsibilities in current and future budgets and as a result, unintentionally masked a financial sustainability problem.

To exacerbate the situation of being in the constant state of wants and needs exceeding resources - which is quite normal for the majority of councils - it has conditioned itself to fund asset upgrade and renewal activity based on what it believes are the highest priorities, while discarding a thorough asset management approach of intervention at the optimal time in order to maximise asset life and minimise service disruptions.

This practice is not new, however it creates falsehoods with key stakeholders, namely the ratepaying community and the Australian Government. Ratepayers should rightly believe the contributions they make ensure predictable levels of service provision, and certainly of service reliability. From this budget forward, these practices cease.

This council is committed to providing full, accurate and transparent information and this information will be matured over time. It may appear to paint a grim picture, but it's important that our planning and operations are based in accuracy and accountability.

Doing more with less is a hallmark of Norfolk and something that the Island can be proud of. It's one thing to be frugal and careful to eliminate wastage wherever possible, and we suggest that these practices need to continue more than ever. What must change, and has, is that the real situation be reported publicly.

It is likely that future financial reports will not only contain planned operational and capital expenditure, but they will also contain what is recommended or ideal so that stakeholders can appreciate the gap in funding, and the reality of future financial planning to meet asset and service obligations.

Administrators' Message

We seek not to offend anyone that has been part of the past regime and practices, rather we acknowledge the hard work and dedicated efforts of Norfolk Island Regional Council employees in doing more with less. What we are pointing out, however is that through sub-optimal maintenance resourcing, assets cannot reach their optimal useful life. Where services have or are short staffed, there has been little to no preventative maintenance taking place, instead staff have been caught in a cycle of reactionary activities and we acknowledge how difficult this must have been. This will continue to be the case until we can transition to arrangements where there are adequate staffing levels and healthy programs of preventative maintenance in order to lengthen and obtain maximum value from the existing asset base.

In providing a more accurate financial picture, we can see the magnitude of the deficit budget forecast for not only the next financial year, but for multiple financial years ahead. Being more realistic and reporting the reality of the situation results in more careful planning and consideration when making decisions, to avoid worsening the situation. Rather, the intense effort put in is more about making decisions that can lead to more favourable outcomes which puts Norfolk Island Regional Council and its community in a more stable and sustainable financial position.

This way forward has been difficult for the organisation and its staff, and we thank them for being open-minded and for providing the information necessary for full transparency.

We encourage the community to continue to be calm and to work with us as we implement a considered plan focussed on sustainable service provision which meets the needs of the community.

Our approach will be to run a ruler over nine services between now and the December 2025 Council Meeting. Similar to the approach taken with electricity, Council expects that full and transparent information will be made available to the community and the Administrators, on which reliable decisions can be made regarding maintenance, investment and service decisions.

This draft operational plan and budget is a compromise in that it is relief from the steep rises which have historically occurred. The community can expect and rely upon sound decisionmaking based on good and accurate information. We will strive to more equitably distribute the rating burden while acknowledging that the community cannot and is not expected to fund everything.

We commit to be both innovative and practical when it comes to reviewing services and the cost of services moving forward. As mentioned at the outset, we will engage on all significant decision-making to ensure we not only understand the downstream consequences of our prospective actions, but that we hear the views of any community members through transparent and public processes.

Scott Mason

Gary Mottau
Financial Administrator

Acting General Manager's Message

I am proud to present the Norfolk Island Regional Council's (NIRC's) Operational Plan & Budget for the 2025-26 Financial Year.

This Operational Plan seeks to ensure continuity of sustainable service delivery to the local community, and a continued focus on asset management, during the coming transition to the Norfolk Island Assembly model. Our improved corporate planning initiatives will continue during the 2025-26 financial year and will provide a strong foundation for the Assembly to inherit and use as the basis for its future planning, infrastructure management and service delivery to the Norfolk Island community.

In determining Council's Operational Plan for 2025-26, we have been careful to balance our financial obligations with responsible increases in revenue, reviews of Council services and essential asset renewal. Alongside this, we have planned our service delivery schedule according to the resources we have available to us. The detailed plan of activities in this document shows whether the activity is one that would usually be performed by a local council, or if it is a State or Commonwealth function that Council is delivering on behalf of another level of government. The Plan also identifies several services delivered by Council as discrete business units, either under legislation or as a genuine profit-generating enterprise, which elsewhere may be delivered by private enterprise.

Transition to the Norfolk Island Assembly is an exciting opportunity for the organisation and its staff. While the work to prepare Council for transition is significant, including organisation of an election and elected member inductions, a bespoke form of government with elected members will be an opportunity for the organisation to align service delivery with direct community decision-making. In the meantime, we will work closely with staff to continue the path to sustainability, with leadership from Council Administrators, advice from the community and support from the Commonwealth Government.

While the operational plan for FY2025-26 year is a proposed budgeted deficit of \$4.17 million, this will allow Council to conduct a meaningful analysis of its service levels according to the community's needs. This will then guide sustainable service delivery over the longer term, including management of essential assets. In the meantime, Council will draw on its cash reserves to maintain the current level of service for the community.

Management has been considerate of the financial position of the community and cost-of-living pressures at the present time, particularly following large increases in rates and charges over the past 3 years. Our proposed revenue policy includes modest increases and considers limited changes, to encourage the preservation of land for farmland purposes and to reduce waste fees for vacant farmland.

There are substantial revenue challenges in relation to funding, including the cessation of Commonwealth subsidies for rates and waste charges, the conclusion of satellite backhaul funding to provide internet services to Norfolk Island Central School and Norfolk Island Health and Residential Aged Care Service (NIHRACS), and a scheduled reduction in Service Delivery Agreement funding, although NIRC is currently in negotiation with the Commonwealth Government to review this agreement.

Acting General Manager's Message

Consistent with Council's obligations for responsible financial management, expenditure will be decreased in the next financial year by over \$800,000, including a reduction in materials and contracts of over \$2.2 million. While this reduction in expenditure will be delivered through continued service efficiency measures, particularly in Waste Management, Norfolk Telecom and Electricity, I am proud that we have planned for an increase in staff, including an uplift of employees based on Norfolk Island. This represents a continued transition away from off-island resources, while providing facility for remote work where sufficient capacity and experience on Norfolk is currently unavailable. This is augmented through the review of our Workforce Development Plan, including staff capacity building initiatives and development of an apprenticeship and traineeship program.

The coming year presents an opportunity to apply our efforts to other key focus areas. These include:

- Asset Management – a continued focus on asset management and planning, including critical asset replacement, development of preventative maintenance schedules and pursuit of grant funding for critical infrastructure and current asset backlog
- Work Health and Safety – delivery of corrective actions from the 2024 Work Health and Safety (WHS) Audit, and development of staff safety awareness, behavioural safety and psychological safety training
- Waste and Wastewater – continued initiatives to resolve the island's bulky waste and recyclables legacy, incremental improvements to wastewater treatment and pursuit of funding to improve wastewater management from properties across the island, consistent with an adopted Wastewater Management Strategy
- Water and Drought Resilience – finalise the island's Drought Response Plan, including improvements to existing water infrastructure, operationalisation of desalination water supply and securing funding for enhanced water capacity to support the community through extended drought periods
- Organisational Values – exploring the current organisational values and what makes our staff proud to work for Council and deliver for the community

To achieve this work, we will continue to build a strong relationship with the community and the Commonwealth Government. The objective is to deliver a sustainable model for the current Council and future Norfolk Island Assembly.

Council's important service delivery role on the Island means that we are always keen to hear from our community to shape our services and prioritise what is delivered within the resources we have available to us. We look forward to working with you throughout 2025-26 and receiving your input and support in delivering for the community, both now and as we transition into the future Assembly.

Philip Reid
Acting General Manager

Council's Leadership and Governance framework

2025-26 is expected to see Norfolk Island Regional Council transition from Administration to a newly-elected Assembly that will deliver the functions of Council into the future.

Council and the current Administrators have been working to strengthen opportunities for community participation in a variety of democratic processes that will help to shape and prioritise Council's service delivery.

Several forums are being formed to provide a direct channel between the Norfolk Island community and Council decision-making, including the Environment and Sustainability Advisory Committee, routine community group/Administrator meetings, and continued engagement with other government agencies.

Council also invites community members to address its Council Meetings in response to Agenda items being discussed.

These mechanisms assist Council to ensure its decisions consider community priorities and provide an opportunity for community members to hear more about Council's service delivery, resource availability and its quest for ensuring a sustainable future.

Council's governance framework supports the effective functioning of the organisation through systems, processes, policies and practices developed to deliver efficient and effective decisions, services and facilities.

Good governance is at the heart of how the Administrators expect the organisation to operate and to increase the community's trust and confidence in Council to deliver its objectives in a way that meets community needs. Council's governance framework is implemented, monitored and reviewed by the executive leadership team, and ensures that Council delivers what it says it will deliver and that we act in an ethically, equitable and responsible way.

Council also takes a proactive approach to risk management across the organisation, to ensure effective decision-making and good governance. Our risk management framework includes:

- Systems and practices based on international and industry standards
- Facilitation of Council's Audit, Risk and Improvement Committee's activities, including an internal audit program
- Participation in Emergency Management Norfolk Island (EMNI)
- Business Continuity Planning and processes
- Work Health and Safety systems

Council's Audit, Risk and Improvement Committee (ARIC) plays an important role in the governance framework. The ARIC provides Council with independent oversight and monitoring of audit, compliance and risk processes, and other internal control activities.

Council's Leadership and Governance framework

The role of ARIC is to review and provide independent advice to Council regarding:

- Legislative compliance
- Risk management
- Fraud control
- Financial management
- Insurance
- Governance
- Council's implementation of its strategies and plans
- Service reviews
- Performance measurement data
- Internal audit

The Audit, Risk and Improvement Committee's Terms of Reference (Charter) sets out the committee's roles and responsibilities and its oversight of the internal and external audit functions, including any statutory duties. The Committee has three independent members, one who is the Chair, as well as Council's Financial Administrator as a non-voting member.

As part of its financial governance and oversight responsibilities, Council engages an external Auditor who provides an independent audit opinion on the general purpose financial report and reports to the Council and the Minister of Infrastructure, Transport, Regional Development, Communications and the Arts on the conduct of the audit, and issues a management letter detailing any matters that arise during the course of the audit. The external auditor also provides input into Council's Audit, Risk and Improvement Committee meetings.

Council also has an Internal audit program, which is an independent, objective assurance and consulting activity. The purpose of internal audit is to enhance and protect organisational values by systematically and independently evaluating and identifying performance improvements in business operations, risk management, internal controls and governance processes. This is undertaken through a strategic program of audits and reviews on behalf of the Audit, Risk and Improvement Committee. The internal audit outcomes are reported independently to the Audit Risk and Improvement Committee.

Council's Service Delivery

Our Council delivers a range of services to the local community that includes typical local government services, and services that extend beyond the usual remit of a local Council.

Council collaborates with the Commonwealth Government to ensure delivery of services agreed with the Commonwealth for our local community. Services delivered under this arrangement include Ports Management, Registry and Licencing services, State-equivalent Public Health services, Community Fire Services, Emergency Management, State-equivalent Planning and Policy, support for Commonwealth Services such as Commonwealth Records and Safety Management of Commonwealth activities, and specific State-equivalent environmental programs, such as the Argentine Ant Eradication Program, or delivery of threatened species programs.

Local government services delivered by Council include Planning and Development, Waste, Wastewater, Roads, Library Services, Parks & Gardens, Visitor Information, Economic Development and Community Development.

We also have Council businesses, some of which NIRC is obliged to deliver under legislation, such as Electricity and Norfolk Telecom. Others are run to generate a profit for Council (Airport, Liquor Bond) that contribute to the cost of delivering local government services.

This breadth of service delivery provides both challenges and opportunities for Council, including balancing service delivery and community need with the funding provided by other levels of Government to deliver services on their behalf.

As the community is aware, local governance arrangements for the Island are currently under review, with a new governance model (the Norfolk Island Assembly) under development which will ultimately take on the functions currently delivered by Council. Transition to this new arrangement has been flagged to occur by December 2025 and will commence when the Commonwealth passes new Norfolk Island legislation. Supporting the election of the Assembly's governing body is an important task of this Operational Plan.

Towards Financial Sustainability

Like most local government organisations, Norfolk Island Regional Council faces the challenge of balancing service provision that addresses the community's needs with a finite level of resourcing. With changing Commonwealth Government arrangements, this challenge may become more pressing in the coming years as some funding streams cease to be available.

Council is the custodian of significant community assets and infrastructure, including:

- The roads and drainage network
- Port facilities
- Electricity infrastructure
- Telecommunications infrastructure
- The Airport
- Sewerage and wastewater infrastructure
- Buildings
- Fuel infrastructure
- Parks, gardens and reserves.

Many of these important community assets are ageing and will require replacement in the coming years. All of these assets require ongoing maintenance and rehabilitation, and the whole-of-life costs of Council's asset portfolio is significant. Across all asset classes, approximately \$51.76 million is required to replace all Condition Rating 5 (Very Poor), plus Condition Rating 4 (Poor) road assets and critical assets identified in need of replacement at the Powerhouse (as shown in the table below), which is considered a proxy for an acceptable standards.

Asset Class	Amount required
Airport, including its electricity supply	\$148,436.50
Buildings	\$165,000.00
Communications, including mobile network, satellite and terrestrial network	\$253,977.61
Depot and Ligherage facilities	\$64,850.00
Electricity, including generation and distribution [^]	\$20,259,702.35
Fuel infrastructure, including the fuel farm	\$285,689.25
Roads and drainage	\$18,380,702.00
Sewerage [#]	\$12,000,000.00
Waste management	\$200,000.00

**based on all Condition Rating 5 assets, plus Condition 4 road assets*

[^]Include LV Switchboard, HV Switchboard and Transformer replacement cost estimates from GHD Condition Assessment

[#]Includes Sewage Treatment Plan cost estimate from STP redesign

The NSW Local Government offers a performance benchmark for calculating Infrastructure Backlog. The estimated cost to bring assets to a satisfactory condition is divided by the written down value of all assets and is compared to a benchmark of 2%. NIRC is in the process of accurately determining its Infrastructure Backlog. When utilising the replacement value of all Condition Rating 5 assets, all Condition Rating 4 road assets and critical powerhouse assets, the calculated asset backlog ratio is 21.7% (written down value of \$238.4 million for all assets).

Towards Financial Sustainability

Council also faces 'cost of living' challenges that many Norfolk Islanders are familiar with, including the cost of bringing goods onto the Island, as well as increasing costs of the supplies required for service delivery.

Council relies on other levels of government for funding (through various grants programs) that contributes significantly to Council's own revenue to enable the delivery of services across the Island. Many of these grants are 'tied' to a specific purpose, restricting their availability as part of Council's general revenue.

Much of Council's own revenue is generated through the collection of rates, fees and charges. This is the Norfolk Island community's and other service user's contribution to resourcing the services that Council delivers.

Council acknowledges past community submissions related to its Schedule of Fees and Charges and has endeavoured to address these community concerns in this year's Budget. This includes a reduced burden on farmland ratepayers and the application of discounted waste charges for vacant farmland. Council will undertake a more wholistic review of rates and charges during 2025-26 to address equity concerns.

Following the service reviews that are scheduled as part of the 2025-26 Operational Plan, further adjustments to fees and charges may be proposed. When this occurs, a draft proposal will be provided to Council for its endorsement and will then be publicly exhibited with an invitation for community feedback prior to any changes being formally adopted by Council.

During 2025-26, Council will be undertaking a number of activities to confirm Council's current and projected financial position and make recommendations for the incoming Assembly's consideration about balancing service provision with available resources. Actions will include:

- Seeking to ensure equity in the distribution of rates and for waste charges
- Focusing on road renewal projects that are matched with funding
- Continuing to review service delivery approaches to identify savings and efficiencies
- Pushing for a strong focus on sustainable asset management, including identifying and costing the asset depreciation backlog and reserving adequate cash reserves to fund future asset renewal
- Review the Norfolk Telecom business with a view to sustainable future service provision.

In this Operational Plan & Budget, Council is taking a service-by-service approach to its consideration of applying increases to fees and charges, with a view that further service reviews to be undertaken during the year will inform the next Revenue Policy's development.

This comprehensive and responsible approach to Council's financial planning is forecast to see Council achieve a surplus Budget position over the long term. This takes into account the likely decrease in Commonwealth funding flowing to Norfolk Island but will see Council move ultimately to a more sustainable and equitable financial position, through prudent and ethical financial management.

Operational Plan Highlights

The focus for this year's Operational Plan is to continue progress on key programs including:

Infrastructure and Services

- Prioritisation of Electricity Supply Infrastructure, including critical powerhouse and distribution infrastructure (Ref 1.1.2)
- Continue to mature Council's Asset Management Program, incorporate contemporary maintenance schedules and targeted condition assessments, refine 10-year Capital Works Program, including prioritisation of renewals backlog (Ref 3.5.1, 5.7.3)
- Develop a Road Infrastructure Strategy with prioritisation of works and renewals and enter into a Memorandum of Understanding with Commonwealth Government departments for collaboration and delivery of island-wide road renewal (Ref 3.8.2, 3.8.3)
- Continue to support path to containerisation of sea freight, including biosecurity processes (Ref 4.3.5)

Planning and Environment

- Comprehensive review of waste management services, to improve efficiency, relieve the island of all waste and recyclables and maintain circular economy principles (Ref 1.5.2, 1.5.4, 1.5.8)
- Continue the Argentine Ant eradication Program, with a target of 50% treatment of cliffsides and 25% treatment of Zone 1 (Ref 1.4.1)
- Wastewater improvements, including finalising a new design and securing funding for the new sewerage treatment plant, continued inspections of high-risk areas and community engagement. These actions have all been identified in the Draft Wastewater Management Strategy Part 2 Action Plan as high to medium priorities (Ref 1.5.5)
- Water and Drought – finalise a Drought Response Plan and secure funding for resilience, including improved desalination operation (Ref 1.6.2)

Customer Care

- Implement the updated Community Support Policy, including Community Grants Program and in-kind support for local causes (Ref 5.8.4)
- Facilitate delivery of local tourism events, showcasing music, food, culture and sport (Ref 3.10.2)
- Develop and implement an online tourist survey to determine industry needs (3.10.5)
- Continued roll-out of online customer forms (Ref 3.6.1)

Corporate Services, Finance and Organisational Support

- Finalise Telecom Strategy Review and consult with community on implementation of actions for ongoing operation (Ref 3.9.1)
- Support Norfolk Island Radio operations through provision of staff, access to assets and direct funding (Ref 5.4.1)
- Support the Environment and Sustainability Advisory Committee and other engagement forums for Council, and increase direct engagement via social media to engage youth in Council activities (Ref 1.6.1)
- Update Workforce Management Plan, including staff capacity building program, development of local talent and an apprenticeship/traineeship program (Ref 4.4.2)
- Continued implementation of Work Health and Safety measures, identified during the 2024 WHS Audit, with a focus on Ports Management and Operations (Ref 6.5.2)

Operational Plan Highlights

Council will also be progressing several important capital works programs, including:

- Electricity - generator overhaul, Low Voltage Switchboard replacement, Elevated Work Platform (EWP) procurement
- Annual Road Renewal Program - Anson Bay Road and New Farm Road
- Buildings and Water - Fire Station door replacement, Taylors Road units refurbishment plumbing upgrade, and rainwater harvesting of NIRC facilities
- Waste - Metal Baler Replacement/Overhaul, Bulky Waste Bunker (Phase 1)
- Wastewater - wastewater treatment plant inlet upgrades
- Other Projects - ICT equipment upgrades, plant and equipment replacement.

Acting General Manager

2025-26 Operational Plan

Integrated Planning and Reporting (IP&R)

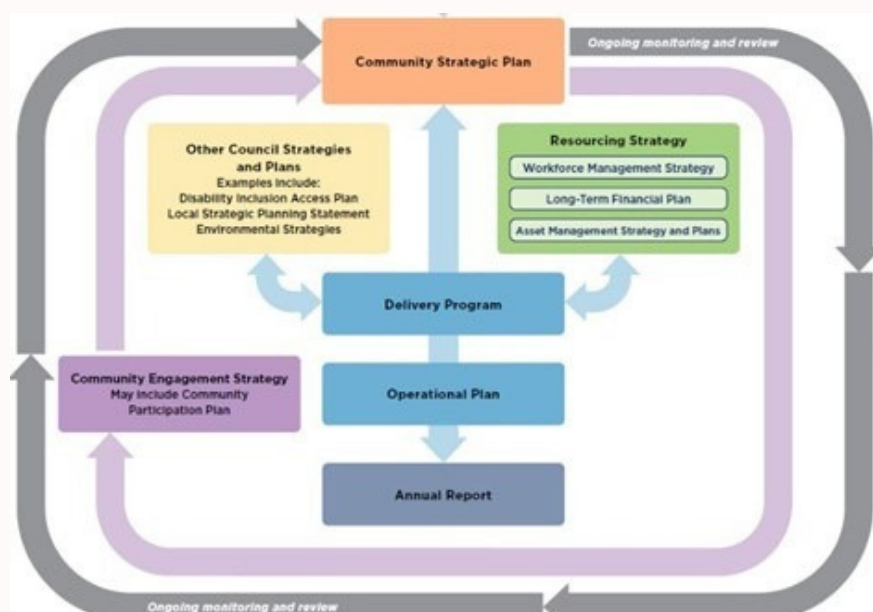

The Integrated Planning and Reporting framework recognises that most communities share similar aspirations: such as a safe, healthy and pleasant place to live, a sustainable environment, opportunities for social interaction, opportunities for employment and reliable infrastructure. The difference lies in how each community responds to these needs. It also recognises that the Council plans and policies should not exist in isolation and are in fact connected to its community.

Norfolk Island Regional Council is required to develop short, medium and long-term plans under the Integrated Planning and Reporting (IPR) Framework. This includes a ten-year Community Strategic Plan which considers the vision and aspirations of the community against the level of resources that will realistically be available to achieve these aspirations.

Norfolk Island Regional Council uses these long term plans to develop a medium term Delivery Program that sets out what Council plans to achieve over a four-year period as well as an annual Operational Plan to set out what will be achieved for the community each year (short term). While the Norfolk Island Regional Council has a custodial role in initiating, preparing and maintaining this Community Strategic Plan on behalf of its community, it is not solely responsible for its implementation. Other partners, such as the Australian Government (representing the responsibilities of State agencies) and community groups will also be engaged and responsible in delivering the long-term objectives of the plan.

The Integrated Planning and Reporting Framework for Norfolk Island will differ from the framework applied to NSW because of the location of Norfolk Island and because Norfolk Island is a Territory of Australia but not part of NSW. This means the Norfolk Island Community Strategic Plan does not need to be connected to the Community Strategic Plans of other local government areas. It must give due regard to Commonwealth legislation.

Figure 1 - The Integrated Planning and Reporting Framework for Norfolk Island

2025-26 Operational Plan

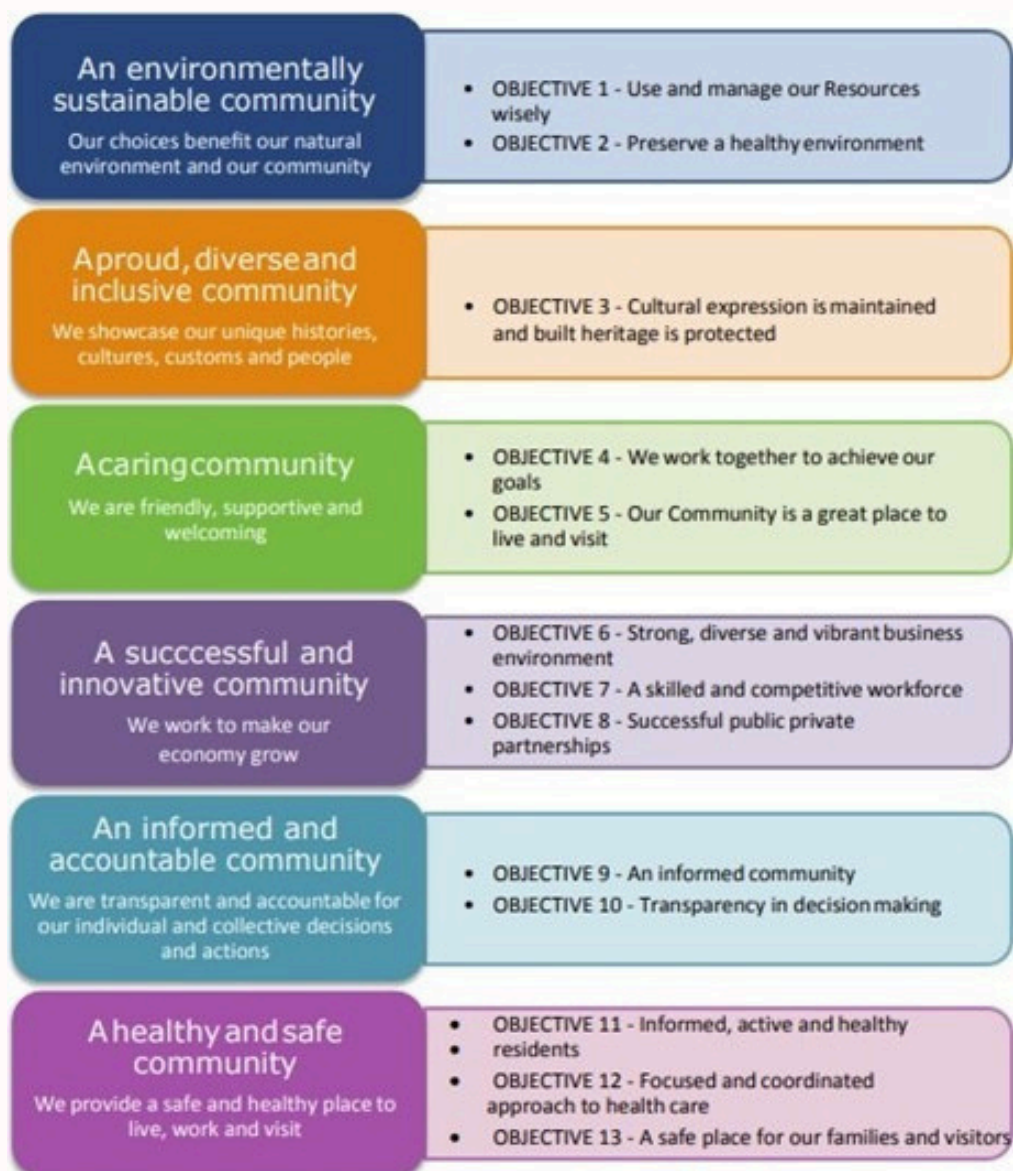

This Operational Plan describes the services and other activities Council will deliver during 2025-26 for the Norfolk Island community.

The Operational Plan demonstrates how Council will continue to progress the commitments of its Delivery Program and contribute to the achievement of community goals, described in the Norfolk Island Community Strategic Plan.

Council will report on the progress of delivering this Operational Plan in its Annual Report to the community, published following the conclusion of this planning period.

This Operational Plan has been prepared under the six themes described in the Community Strategic Plan:

Figure 2 - Community Strategic Plan Themes for Norfolk Island

1. An environmentally sustainable community

COMMUNITY OBJECTIVES:

- Use and manage our resources wisely
- Preserve a healthy environment

Council's service delivery for 2025-26 to contribute to an environmentally sustainable community is described below. The table also indicates whether the service is usually one delivered by a local council, by State or Federal Government or by private enterprise. Services delivered under the Service Delivery Agreement (SDA) with the Commonwealth are indicated ☐

'Type' KEY	Local government function	State/Federal function	Private sector function		☐ = included in SDA	(s) = subsidised service
			L = legislated	NL = not legislated

5.8.6	Promote and deliver candidate information sessions to generate interest and attract candidates for election to the Norfolk Island Assembly	Number of candidate information sessions held Number of candidates for election	At least 2 More than 5	Media & Communications Governance Team	
5.8.7	Develop and deliver a comprehensive induction program to support the newly elected Norfolk Island Assembly to effectively undertake its governing body responsibilities	Induction program delivered	within 3 months of the election	Office of General Manager Governance Team	
5.8.8	Develop and maintain a Compliance Register to monitor that Council is meeting its statutory obligations	Compliance Register in place	By end June 2026	Governance Team	
5.10	Records				

Ref	2025-26 actions	Measure	2025-26 Target	Responsibility	Type
5.10.1	In collaboration with the National Archives, continue work of a retention schedule for historic records, and continue implementation of the digitisation plan, policy and procedure.	% of scheduled activities completed	At least 50%	Records Team	
5.10.2	Facilitate public access to historical records and information via inclusion in the Library's collection	Digitised Hansard records and past annual reports publicly available	by 31 December 2025	Records Team	
5.10.3	Complete implementation of the NI Retention and Disposal Authority project	project completed	by 30 June 2026	Records Team	
5.10.4	Continue to implement Council's EDRMS for remaining departments enabling central access and storage of all Council records	EDRMS implementation completed	by 30 June 2026	Records Team	
5.10.5	Implement an online system for booking forms as part of Council's Digital First Strategy	% of forms available as online forms	10%	Records Team	

6. A healthy and safe community

COMMUNITY OBJECTIVES:

- Informed, active and healthy residents
- Focused and coordinated approach to health care
- A safe place for our families and visitors

Council's service delivery for 2025-26 to contribute to a healthy and safe community is described below. The table also indicates whether the service is usually one delivered by a local council, by State or Federal Government or by private enterprise. Services delivered under the Service Delivery Agreement (SDA) with the Commonwealth are indicated ☐

'Type' KEY	Local government function	State/Federal function	Private sector function		☐ = included in SDA	(s) = subsidised service
			L = legislated	NL = not legislated		

Ref	2025-26 actions	Measure	2025-26 Target	Responsibility	Type
6.1	Emergency Management				
6.1.1	Complete works on Rawson Hall to bring into line with Cat 5 Cyclone Rating, so that Hall can be used as Evacuation Centre	Cyclone rating determined; Works completed	by 30 June 2026	Facilities Team	
6.1.2	Update the Norfolk Island Disaster and Emergency Plan, including planning for cyclones and tsunamis	Plan updated	by December 2025	Emergency Management Team	
6.1.3	Develop a Water Shortage Response Plan in the context of emergency management	Plan developed	by September 2025	Emergency Management Team	
6.1.4	Facilitate Emergency Management Norfolk Island committee meetings, and conduct tabletop disaster response exercise	Number of EMNI meetings held	at least 6	Emergency Management Team	
6.2	Facilities				
6.2.1	Review and renew lease and licence agreements for Council facilities and Council-owned land as required	% of lease and licence agreements that are up-to-date	100%	Facilities Team	
6.3	Fire Services				

Ref	2025-26 actions	Measure	2025-26 Target	Responsibility	Type

Statement of Revenue Policy

REVENUE POLICY 2025–2026

STATUTORY REQUIREMENTS

In accordance with the Local Government Act 1993 (NSW)(NI) the following statutory requirements are included in this document:

1. Statement of Ordinary and Special Rates
2. Rating Structure
3. Rates and Charges Hardship Assistance Policy
4. Statement of Fees to be Charged and Pricing Policy of Goods and Services
5. Statement of Borrowings
6. Statement of Private Works, and
7. Statement of Business and Commercial Activities

1 STATEMENT OF ORDINARY AND SPECIAL RATES

ORDINARY RATES

In 2025-2026 Council will levy ordinary (general) rates using a structure comprising a base amount to which an ad valorem (rate in the dollar of property valuation) component is added.

All rateable properties within each category, regardless of their land value, are levied a base amount. The balance of income for general rates is derived by multiplying the land value of a property by a rate in the dollar for the relevant category. The amount payable by ratepayers under this component is dependent on the land value of the property as determined by the Valuer General (NI).

The total amount required to be levied for ordinary rates is \$1.98 million, which is 3.5% increase on the FY 2024-2025 net aggregate general rates levy (after subsidy). Unfortunately, the Commonwealth of Australia is no longer providing Council with \$200,000 in grant funds to provide general rates relief, which has previously been passed onto rate payers in the form of a rebate on rates notices. Council does not intend to recover the revenue from this subsidy from ratepayers in FY 2025-26, but may need to do so in the future.

The applied *Local Government Act 1993* (NSW)(NI) includes rating provisions for Norfolk Island and stipulates three rating categories applicable to Norfolk Island: Residential, Business and Farmland. Where a portion of land cannot be categorised into one of the three categories listed above, the default category is Business.

In Council's ongoing efforts to promote equity between the various rating categories and subcategories, several modifications to the rating structure were considered when formulating the rates model for FY 2025-26. Previous exhibition commentary indicated a perceived inequity between residential and farmland classifications. As a result, the weightings between the different categories have been adjusted to bring farmland rates closer in line with residential rates.

Category weighting	2024-25 Weightings	2025-26 Weightings
Residential	44.0%	44.8%
Farmland	7.0%	5.1%
Business - Accommodation	Included below	Included below
Business	49.0%	50.1%
	100%	100.0%

The increase in residential is to achieve an approximate increase of 3.5% for its subcategories and recognises the above-referenced movement from farmland to residential. Reducing the weighting on farmland brings the base and ad valorem rates for the residential and farmland categories closer together than in the prior year. The balance is then added to the business and accommodation categories.

Council recognises that more work is needed to address perceived equity issues with general rates. To that end, Council intends to begin the process of completely reviewing the community's rating structure soon and progressing, if necessary, throughout the 2025-26 financial year.

Exhibit A to this Revenue Policy is table a compares general rates by sub-category over the past three years.

Definition of the categories from the Local Government Act 1993 (NSW)(NI) are as follows:

Residential

1. Land is to be categorised as "residential" if it is a parcel of rateable land valued as one assessment and:
 - a. its dominant use is for residential accommodation (other than as a hotel, motel, guest-house, backpacker hostel or nursing home or any other form of residential accommodation (not being a boarding house or a lodging house) prescribed by the regulations), or
 - b. in the case of vacant land, it is zoned or otherwise designated for use under an environmental planning instrument (with or without development consent) for residential purposes, or
 - c. it is rural residential land.

Table: Residential Sub-Categories

Rating Category	Description	Definition
1	Residential - Small	Land which meets the following criteria: (a) characterised as residential under section 516 or 519 of the Local Government Act 1993 No 30 (NSW) (NI); and (b) has an area less than or equal to 0.3 hectares.
2	Residential - Medium	Land which meets the following criteria: (a) characterised as residential under section 516 or 519 of the Local Government Act 1993 No 30 (NSW) (NI); and (b) has an area greater than 0.3 hectares and less than or equal to 1 hectare.
3	Residential - Large	Land which meets the following criteria: (a) characterised as residential under section 516 or 519 of the

		Local Government Act 1993 No 30 (NSW) (NI); and (b) has an area greater than 1 hectare.
--	--	--

Farmland

2. Land is to be categorised as "farmland" if it is a parcel of rateable land valued as one assessment and its dominant use is for farming (that is, the business or industry of grazing, animal feedlots, dairying, pig-farming, poultry farming, viticulture, orcharding, bee-keeping, horticulture, vegetable growing, the growing of crops of any kind, forestry or any combination of those businesses or industries) which:
- has a significant and substantial commercial purpose or character, and
 - is engaged in for the purpose of profit on a continuous or repetitive basis (whether or not a profit is actually made).
- c. Land is not to be categorised as farmland if it is rural residential land.
- d. The regulations may prescribe circumstances in which land is or is not to be categorised as farmland.

Table: Farmland Sub-Categories

Rating Category	Description	Proposed revised Definition
4	Farmland - Small	Land which meets the following criteria: (a) characterised as farmland under section 515 or 519 of the Local Government Act 1993 No 30 (NSW) (NI); and (b) has an area less than or equal to 1 hectare.
5	Farmland - Medium	Land which meets the following criteria: (a) characterised as farmland under section 515 or 519 of the Local Government Act 1993 No 30 (NSW) (NI); and (b) has an area more than 1 hectare and is less than or equal to 3 hectares.
6	Farmland- Large	Land which meets the following criteria: (a) characterised as farmland under section 515 or 519 of the Local Government Act 1993 No 30 (NSW) (NI); and (b) has an area greater than 3 hectares.

Business

3. Land is to be categorised as "business" if it cannot be categorised as farmland or residential.

Table: Business Sub-Categories

Rating Category	Description	Proposed revised Definition
7	Business - Accommodation A	Land which meets the following criteria: (a) characterised as business under section 518 or 519 of the Local Government Act 1993 No 30 (NSW) (NI); (b) is a tourist accommodation house other than a hotel; and comprises no more than 10 accommodation units; where 'tourist

Rating Category	Description	Proposed revised Definition
		accommodation house', 'hotel' and 'accommodation unit' have the same meaning as in the Tourist Accommodation Act 1984 (NI).
8	Business - Accommodation B	Land which meets the following criteria: (a) characterised as business under section 518 or 519 of the Local Government Act 1993 No 30 (NSW) (NI); (b) is a tourist accommodation house other than a hotel; and (c) comprises more than 10 but less than 21 accommodation units; where 'tourist accommodation house', 'hotel' and 'accommodation unit' have the same meaning as in the Tourist Accommodation Act 1984 (NI).
9	Business - Accommodation C	Land which meets the following criteria: (a) characterised as business under section 518 or 519 of the Local Government Act 1993 No 30 (NSW) (NI); (b) is a tourist accommodation house other than a hotel; and (c) comprises 21 or more accommodation units; where 'tourist accommodation house', 'hotel' and 'accommodation unit' have the same meaning as in the Tourist Accommodation Act 1984 (NI).
10	Business - Accommodation D	Land which meets the following criteria: (a) characterised as business under section 518 or 519 of the Local Government Act 1993 No 30 (NSW) (NI); and (b) is a tourist accommodation house being a hotel; where 'tourist accommodation house' and 'hotel' have the same meaning as in the Tourist Accommodation Act 1984 (NI).
11	Business - Shops/Retail A	Land which meets the following criteria: (a) characterised as business under section 518 or 519 of the Local Government Act 1993 No 30 (NSW) (NI); (b) has a primary use of the sale of goods to the public; and (c) has an area less than or equal to 1,000 square metres; but excludes land categorised as Business – Supermarket or Shopping Facilities – Small, or Business – Building Supplies.
12	Business - Shops/Retail B	Land which meets the following criteria: (a) characterised as business under section 518 or 519 of the Local Government Act 1993 No 30 (NSW) (NI); (b) has a primary use of the sale of goods to the public; and (c) has an area greater than 1,000 square metres; but excludes land categorised as Business – Supermarket or Shopping Facilities – Large, or Business – Building Supplies.
13	Business - Building	Land which meets the following criteria:

Rating Category	Description	Proposed revised Definition
	Supplies	(a) characterised as business under section 518 or 519 of the Local Government Act 1993 No 30 (NSW) (NI); (b) has a primary use of the sale of building and construction supplies.
14	Business – Café/Restaurant A	Land which meets the following criteria: (a) characterised as business under section 518 or 519 of the Local Government Act 1993 No 30 (NSW) (NI); (b) has a primary use of preparing and selling food and drink for consumption on or off the land (and may include the ancillary sale of liquor for consumption on the land). (c) has an area less than or equal to 1,000 square metres.
15	Business – Café/Restaurant B	Land which meets the following criteria: (a) characterised as business under section 518 or 519 of the Local Government Act 1993 No 30 (NSW) (NI); (b) has a primary use of preparing and selling food and drink for consumption on or off the land (and may include the ancillary sale of liquor for consumption on the land). (c) has an area greater than 1,000 square metres.
16	Business - Service Station	Land which meets the following criteria: (a) characterised as business under section 518 or 519 of the Local Government Act 1993 No 30 (NSW) (NI); (b) has a primary use of the retail sale of fuel (and may include the ancillary maintenance, repair or servicing of vehicles, or ancillary sale of miscellaneous items). (c) has an area greater than 1,000 square metres.
17	Business - Car Rentals	Land which meets the following criteria: (a) characterised as business under section 518 or 519 of the Local Government Act 1993 No 30 (NSW) (NI); (b) has a primary use of the hire of vehicles to the general public, either for short or long term hire.
18	Business - Clubs/Bars A	Land which meets the following criteria: (a) characterised as business under section 518 or 519 of the Local Government Act 1993 No 30 (NSW) (NI); (b) has a primary use of the sale of liquor for consumption on the land (and may include ancillary entertainment activity and preparing and selling food for consumption on the land); and (c) has an area less than or equal to 1,000 square metres.
19	Business - Clubs/Bars B	Land which meets the following criteria: (a) characterised as business under section 518 or 519 of the Local Government Act 1993 No 30 (NSW) (NI); (b) has a primary use of the sale of liquor for consumption on the

Rating Category	Description	Proposed revised Definition
		land (and may include ancillary entertainment activity and preparing and selling food for consumption on the land); and (c) has an area greater than 1,000 square metres.
20	Business - Supermarket or Shopping Facility - Small	Land which meets the following criteria: (a) characterised as business under section 518 or 519 of the Local Government Act 1993 No 30 (NSW) (NI); (b) has a primary use of: (i) a supermarket; or (ii) a group of shops containing a supermarket; and (c) has an area less than or equal to 1,000 square metres.
21	Business - Supermarket or Shopping Facility - Large	Land which meets the following criteria: (a) characterised as business under section 518 or 519 of the Local Government Act 1993 No 30 (NSW) (NI); (b) has a primary use of: (i) a supermarket; or (ii) a group of shops containing a supermarket; and (c) has an area greater than 1,000 square metres.
22	Business - Other	Land which meets the following criteria: (a) characterised as business under section 518 or 519 of the Local Government Act 1993 No 30 (NSW) (NI); (b) does not meet the definition of any other business category (categories 7-21).
23	Mining	Land which meets the following criteria: (a) is characterised as mining as defined in section 517 or 519 of the Local Government Act 1993 No 30 (NSW) (NI)

2 RATING STRUCTURE

The Norfolk Island Applied Laws Ordinance 2016, Item 35 - sets out the minimum amounts of ordinary rates Council must levy. It provides that in year one (year ended 30 June 2017) Council must levy at least \$500,000. In subsequent years the Regional Council must levy at least \$1 million.

Norfolk Island Regional Council has adopted a value-based rating system in compliance with the *Local Government Act 1993* (NSW)(NI). Ordinary rates are levied under section 494 and special rates under section 495. The rating structure adopted and summarised is outlined in the table below.

Table: Rating Structure

Total	100%	\$1,983,561	\$1,983,561	0

3 OVERDUE RATES AND CHARGES

Hardship Policy Council has in place a Hardship Policy – Rates and Charges (3.02) to assist ratepayers. The purpose of the policy is to allow Council to provide assistance to those ratepayers who are experiencing genuine financial hardship, and to explain the process for assessing and processing requests, payment arrangements, writing off debt, and the applicable criteria for assistance.

Interest

Interest is charged on all overdue rates and annual charges in accordance with section 566 of the *Local Government Act 1993* (NSW)(NI) on overdue amounts is set by NSW Office of Local Government, this amount is also adopted by Council. Council will adopt the maximum interest rate permitted by the Minister for the 2025-2026 financial year, which is 10.5% per annum.

4 RATING EXEMPTIONS

Current exemptions are only applicable under the *Local Government Act 1993* (NSW)(NI) and the associated regulations, this currently includes Commonwealth Land, the Hospital and the School.

5 STATEMENT OF FEES TO BE CHARGED AND THE PRICING POLICY OF GOODS AND SERVICES

Council fees for the 2025-2026 financial year are listed in the schedule of Fees and Charges.

In determining the appropriate fees to be charged for Council services and facilities, the principle applied is that charges should be considered fair and equitable to the general community. The range of services provided by Council to the community is incredibly diverse and requires different considerations when determining an associated fee or charge.

The total fee or charge is determined having regard to the following categories:

Code	Description
A	Economic Cost Total cost of providing services for private good.
B	Community Service Services considered to have a level of benefit to the community. Generally, benefits are not solely confined to users. These services are partially funded by rates.
C	Regulated Charges Charges which are determined by legislation.

D	User Pays Principle Services under this category are such that individual costs can be determined and met by the user of the service.
E	Market Forces Services that Council operates in a competitive market. Charges are similar to other providers.
F	Cost Plus Services provided on a commercial basis with an amount of profit included.

Fees which appear in the schedule of Fees and Charges identify the applicable pricing category.

6 STATEMENT OF BORROWINGS

To provide for the future needs of our community, Council may borrow funds to provide infrastructure and community assets which are not able to be funded by normal revenue sources. Loans allow Council to spread the cost of the asset over the length of the loan period, ensuring that both current and future generations contribute to pay for the asset cost, in accordance with the principle of inter-generational equity. Council avoids borrowing for the annual cost of asset renewal works.

Acquired loans are based on periods which represent the economic life of the facility and/or asset, or a reasonable fixed term, whichever is the lesser. All loans are financed from an approved financial institution that offers the most competitive interest rate.

Council has no current plans to borrow funds in 2025-2026. Where grants are available which may allow the expediting of asset or infrastructure projects, then loans may be used where required to supplement the funding of asset or infrastructure costs.

7 STATEMENT OF PRIVATE WORKS

The *Local Government Act 1993* (NSW)(NI) enables Council to carry out the following works for residents and organisations on private land:

- Paving and road making
- Kerbing and guttering
- Demolition and excavation
- Water, sewerage and drainage connections
- Land clearing and tree felling
- Tree planting and maintenance
- Fencing and ditching
- Miscellaneous works and services

Plant is to be charged at the prescribed rate adopted by council in the schedule of Fees and Charges. The following conditions apply:

- A charge for the appropriate operator is to be added to all vehicle and small plant hire rates
- Overtime rates may apply and hire rates should be adjusted accordingly
- Travelling time will be charged at full rate for plant
- Additional charges will apply if truck transport is required
- Minimum charge is one hour

Materials and labour are to be charged at cost plus an agreed overhead rate, ensuring freight and waste charges are included in the total price. Large contracts and Government works will be individually determined by quote considering cost recovery principles.

8 STATEMENT OF BUSINESS AND COMMERCIAL ACTIVITIES

Council conducts the following commercial activities:

- Waste Management
- Airport
- Water Assurance (Sewer)
- Telecom
- Electricity
- Liquor Bond

Waste Management

Charges which apply to domestic and commercial waste management are determined in accordance with the recovery of costs to manage waste management on Norfolk Island. The total amount required to be levied via the waste management charge is \$1.22 million. Similar to general rates, the Commonwealth of Australia is no longer providing a grant (previously \$800,000 per annum) to Council to subsidise waste charges for ratepayers.

Waste charges in FY 2025-26 are calculated through various methods depending on the category as follows:

- Residential – initial charge for each sub-category is based on percentage of valuation. The final charge amount is adjusted manually to be equal to a 3.5% increase on the prior year amount. Each sub-category is charged a different amount with larger properties paying a higher charge.
- Farmland - initial charge for each sub-category is based on percentage of valuation. The final charge amount is adjusted manually to be equal to the corresponding residential category.
- Accommodation – the initial charge is based on the target revenue divided by the number of units of accommodation for all accommodation sub-categories. The charge amount is then adjusted manually to be equal to a 3.5% increase on the prior year amount. All accommodation subcategories are charged the same amount per unit of accommodation.
- Business - initial charge for each sub-category is based on percentage of valuation. The final charge amount is adjusted manually to be equal to a 3.5% increase on the prior year amount. Each sub-category is charged a different amount based on the category's percentage of the valuation for business properties.

A 50% reduction in the charge has applied to vacant residential and farmland which is not recovered from other categories.

While the above waste charge model is being considered as most favourable and equitable for FY 2025-26, it does contain two issues:

- In an effort to set each property's waste charge increase to 3.5%, a shortfall (to Council) of \$117,839 from the vacant property concession remains uncollected.

- Residential and farmland properties are charged different amounts according to the size of the subcategory of the property, where ideally all subcategories within those two major categories are charged at the same rate.

Similar to general rates, Council will undertake efforts beginning in the new financial year to review the rating structure for waste rates with a view toward greater equity.

Waste charges are formally established in Council's register of Fees & Charges; however, **Exhibit B** compares waste charges by sub-category over the past three years.

Please note that when reviewing the comparative waste charges in the register of Fees & Charges, it will appear as if charges have gone down from the prior year. As Council previously legislated the full amount of charges prior to the application of the Commonwealth subsidy, the charges in the register need to be adjusted down to reflect the net paid in the prior year plus 3.5%. The comparability between years is better illustrated in **Exhibit B**, as all charges are shown on a net or "as-paid" basis.

Airport

Airport fees and charges are set in accordance with the adopted schedule of Fees and Charges.

Water Assurance (Sewer)

Water assurance charges are set in accordance with the adopted schedule of Fees and Charges. Charges apply to all properties that are connected to the Norfolk Island sewer system (the water assurance scheme). The charges relate to the type of use of the property and in some cases the intended use and/or occupancy.

Telecom

Council approved (19 August 2020 Resolution 2020/131) all Norfolk Telecom (NT) Fees and Charges (Pricing Policy Categories E & F) be changed to Commercial Retail Price so that Norfolk Telecom can be better placed to respond to evolving customer service expectations and demands. Norfolk Telecom maintains a full list of Fees and Charges on their website.

Electricity

Charges that apply to electricity supply are set in accordance with the adopted schedule of Fees and Charges.

Liquor Bond

The Liquor Bond prices both its wholesale and retail items at commercial rates. Pricing Policy E – Market Forces applies.

Explanation Table

Classifications

Pricing Policy Category

A	Economic Cost	The total cost of providing a service for the private good.
B	Community Service	Services considered to have a level of benefit to the community. Generally, benefits are not solely confined to users. These services are partially funded by rates.
C	Regulated Charges	Charges which are determined by legislation.
D	User Pays Principle	Services under this category are such that individual costs can be determined and met by the user of the service.
E	Market Forces	Services that Council operates in a competitive market. Charges are similar to other providers.
F	Cost Plus	Services provided on a commercial basis with an amount of profit included.
